CLIENT

STORIES

AUTHCOR TECHNOLOGIES

ShadoInk collaborated with Authcor Technologies to rebuild their digital presence from the ground up. The goal was simple – create a system where the brand, content, and leadership narrative work in sync. We delivered a modern, high-performance website with an integrated Content Management System (CMS) that allows their team to publish and scale effortlessly.

Services Provided:

1. Website design and development
2. CMS integration for blogs and resources
3. Founder personal branding and storytelling system
4. LinkedIn company page revamp and growth strategy
5. SEO and content alignment across all platforms

The result is a unified ecosystem that connects Authcor's website, founder brand, and LinkedIn presence – turning every digital touchpoint into a channel for visibility, credibility, and lead generation.

The logo for AuthCor features the word "Auth" in white and "Cor" in red, set against a black background. A red swoosh underline is positioned beneath the "A" in "Auth".

ISHMEET SINGH RAINA

Shadolnk partnered with Ishmeet Singh Raina, Founder of Alchemy Landbase and Co-Founder of TRIBE, to build a powerful personal brand that reflects his authority in India's farmhouse real estate space. Through consistent storytelling, strategic positioning, and thought-leadership content on LinkedIn, we helped establish him as The Land Alchemist – a voice of credibility and education in a complex, compliance-driven market. His article on “Nature, Real Estate & the Mind” was even featured in Business Today, cementing his reputation as an industry thought leader.

Services Provided:

1. LinkedIn personal branding and content strategy
2. Ghostwriting and authority positioning
3. Article writing and media outreach (Business Today feature)
4. Website design and development for Alchemy Landbase
5. Brand identity and digital alignment across TRIBE ecosystem.

Together, we built a cohesive digital footprint – where Ishmeet's personal narrative, company website, and brand ecosystem work seamlessly to attract investors, build trust, and amplify industry influence.

TRIBE

ShadoInk worked with TRIBE Group, India's first integrated farmhouse ecosystem, to craft a unified digital identity that mirrors its vision – Growth Without Compromise. We built a sleek, conversion-focused website that highlights TRIBE's development, consulting, and lifestyle arms, while maintaining clarity across brands like Alchemy Landbase and XCIS. Every page was designed to balance credibility, design, and compliance – the three pillars that define TRIBE.

Services Provided:

1. Website design and development
2. Social media strategy and content management
3. Visual branding and storytelling
4. SEO and performance optimization
5. Campaign design for project launches and founder features

Through strategic content and cohesive visuals, we transformed TRIBE's online presence into a trusted digital ecosystem – where every post, project, and page reinforces its promise of secure, lifestyle-ready farmhouse living.

ONBOARDING

PROCESS

ONBOARDING TIMELINE

At ShadoInk, onboarding isn't just about starting a project — it's about building alignment. We begin with a discovery call to understand your goals, audience, and growth vision. From there, we develop a custom strategy blueprint that outlines the creative direction, timelines, and measurable outcomes. Once aligned, our team sets up dedicated collaboration channels and content systems to keep everything transparent and on track. Every project kicks off with clear communication, defined milestones, and a shared Notion dashboard — ensuring you always know what's happening, when, and why.

The result: a seamless transition from idea to execution, powered by clarity and collaboration.

03

THE

FINAL

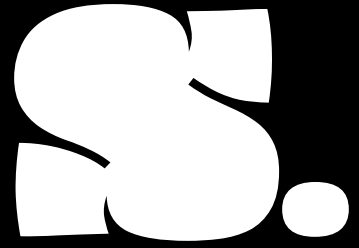

STEP

Let's align!

If you're ready to stop managing multiple vendors and start building with one reliable growth partner, ShadoInk is your team. From content to code, design to delivery – we help founders and brands scale with systems that actually work.

Let's turn your vision into something real.
